## Scanning

So what's the big deal about scanning? **Everything!** Scanning documents has become more critical to your business than you might have ever thought. Today, the ability to capture information, images, and data is not always enough. Once you have it -- what to do with it, or how to access it becomes the next dilemma... not anymore.

We offer solutions that meet even the most demanding scanning and capture requirements. From documents to drawings, from images to data, we've got what it takes to ensure maximum productivity. Why own part of the process, when we can own it all for you. All you have to do is contact us and share what your needs are. We'll do the rest!

### *The Scanning Advantage...*

- Quick Turn-Around Time
- Proven High Customer Satisfaction Rate
- Experience in the Field
- Internet Access & Capabilities
- Book Marking
- Indexing / Hyperlinks
- Various Outputs ( PDF, Tiff, OCR, etc. )
- Small to Large Format  
( including E-size drawings )
- Viewing Software
- Free Training
- and much more

Regardless if you currently have some scanning capabilities, or if you have none at all, we're confident you'll like what you see and hear. Find out all you can about our scanning solutions and how to take advantage of its power. Simply give us a call. After all, you've got nothing to lose.
